## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election with traverse of Group I in Paper No. 6 is acknowledged. The traversal is on the ground(s) that the claims do not represent distinct inventions and would not impose an undue burden on the examiner to search. This is not found persuasive because the restriction is between a method of operating a game system and a virtual casino are which separate and distinct inventions. Additionally it is unclear how the applicant's representative determined that the search would not impose an undue burden on the examiner. A mere assertion of undue burden by the examiner is does not present the necessary evidence to traverse the restriction requirement. The examiner contends that Group I is related to a actual game system and the functionalities of the hardware of that system and that Group II is related to a virtual casino system wherein the term virtual sends the examiner to a different and distinct body of art.

The requirement is still deemed proper and is therefore made FINAL.

### **Undue Multiplicity of Claims**

2. The examiner notes that the applicant has elected Group I drawn to a method of operating a game system. In the previous office action the examiner noted that if Group I was selected in the restriction requirement that Claims 1-149 are subject to an undue multiplicity of claims rejection see MPEP 2173.05(n). The applicant's representative was previously telephoned on 8/31/01 and advised by the examiner that if group I of the

Art Unit: 3713

restriction was elected that it would be subject to an undue multiplicity of claims rejection. In receipt of this office action the applicant is informed that the selected group I is subject to an undue multiplicity of claims rejection and that the applicant must select 30 claims for examination and that the rest of the claims will be withdrawn from consideration.

The applicant shall select 30 claims in accordance with the above undue multiplicity of claims rejection.

***Conclusion***

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John M Hotaling II whose telephone number is 703 305 0780. The examiner can normally be reached on Mon-Thurs 7:30-6.

Attachment for PTO-948 (Rev. 03/01, or earlier)  
6/18/01

The below text replaces the pre-printed text under the heading, "Information on How to Effect Drawing Changes," on the back of the PTO-948 (Rev. 03/01, or earlier) form.

INFORMATION ON HOW TO EFFECT DRAWING CHANGES

**1. Correction of Informalities -- 37 CFR 1.85**

New corrected drawings must be filed with the changes incorporated therein. Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin. If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings **MUST** be filed within the **THREE MONTH** shortened statutory period set for reply in the Notice of Allowability. Extensions of time may **NOT** be obtained under the provisions of 37 CFR 1.136(a) or (b) for filing the corrected drawings after the mailing of a Notice of Allowability. The drawings should be filed as a separate paper with a transmittal letter addressed to the Official Draftsperson.

**2. Corrections other than Informalities Noted by Draftsperson on form PTO-948.**

All changes to the drawings, other than informalities noted by the Draftsperson, **MUST** be made in the same manner as above except that, normally, a highlighted (preferably red ink) sketch of the changes to be incorporated into the new drawings **MUST** be approved by the examiner before the application will be allowed. No changes will be permitted to be made other than correction of informalities, unless the examiner has approved the proposed changes.

**Timing of Corrections**

Applicant is required to submit the drawing corrections within the time period set in the attached Office communication. See 37 CFR 1.85(a).

Failure to take corrective action within the set period will result in **ABANDONMENT** of the application.
